5. **Discussion and action on Resolution 2016-2 to Withdraw from the Local Government Property Insurance Fund and obtain coverage through Municipal Property Insurance Company (MPIC)**
   Rosch explained to the Board that the current insurance carrier has raised the premiums on many policy holders as much as 100%, LCFR premium is approximately 85% higher than last year. Explanations given to Rosch for the rate increases were related to large claims paid out that were under funded by premiums. Policies were reviewed and adjustments have been made resulting in significantly higher premiums. Our current R&R insurance agent has recommended we obtain a quote from MPIC which has been done and the premium quote based on the information provided from LGPIF is approximately $600 less than our current provider LGPIF. Rosch stated that we have been updating our inventory and will provide a coy to our agent when completed for review. It is possible that our cost could decrease based on our current policy values. A motion by Grimmer, second by Gallun was to withdraw from LGPIF and to obtain coverage through MPIC effective 4/1/2016. All ayes, motion was carried.

6. **Discussion and action on Capital purchases for 2016**
   Keith reviewed the diagram showing a layout of furniture for Station #2’s training room and reviewed with the Board a list of furniture and equipment that would be purchased for the training center. The Capital budget would account for $10,000 with the remaining needs being addressed through the donation received from an anonymous donor and the Wal-Mart Foundation. Keith stated that the Village of Nashotah is planning a celebration/open house to mark the anniversary of the fire station. The event will be held sometime in early July.       Review of financial reports was available. With only 2 months data into the year and the continued front loading of contract and yearly expenses, LCFR was tracking as expected. There were no questions.

9. **Discussion and possible action on proposed Intern program**
   Keith provided a written document for the Board members outlining the program he is preparing for LCFR to begin in May or June of 2016. He explained that preference would be given to the students looking to commit to three years working for their Associates Degree in Fire Science but also their Paramedic certification through MATC or WCTC versus someone choosing only to go the two year degree route. Cost is estimated at $20,700/year to have three students housed at Station #2. Details of the program including housing, equipment and uniforms, duty shifts and conditions warranting termination and repayment. Keith has been reviewing the contracts and an agreement used by other programs and is putting one together for LCFR use. A motion was made by Krickhahn and second by Gallun to support LCFR efforts to begin an Internship program. All ayes, motion was carried.

   c. Training/Conference Updates – Paramedic Refresher has been completed with additional training offerings regularly available for staff.
