Review and consider application for an addition to the existing residence of Michael Porter and Kathleen Gehl of 5721 N STH 83, plus 2 accessory buildings
Administrator Douglas reported that the applicants proposed to add an addition to their existing residence. The plans meet all of the requirements from a zoning standpoint. There were some questions regarding the removal of trees; however, Forester Lincoln felt there was no significant value to the trees that would be lost and the residents intend to replace those as well as add additional trees.

Review and consider application for a remodel, addition and a deck on the existing guest house of Joel and Caran Quadracci of 5251 N STH 83
Administrator Douglas reported that the applicants propose to renovate an existing guest house to make it an “artist retreat.” He stated the plans meet all of the requirements from a zoning standpoint. The renovated building will remain consistent with the current house and emulate the look of the neighbor’s house to the north. The foundation is in pretty good shape and will be refurbished and reinforced. The chimney is leaning and the roof rafters are sinking – both will be reworked and replaced. The plans are to keep within the existing parameters of being grandfathered.

Motion (von Bereghy/Villavicencio) to approve the application for renovation an existing guest house submitted by Joel and Caran Quadracci of 5251 N STH 83. *Motion carried*

Review and consider application for a new garage submitted by Chad and Janene Clark of 5162 N Maple Lane
Administrator Douglas reported that the applicants propose to raze the existing detached garage, reroute the driveway, and build a new detached garage. He stated the plans meet all of the requirements from a zoning standpoint. There will be trees removed; however, they are far enough from the lake that they do not need to be replaced.

**Discussion of Oak Wilt and potential violation(s) of Village Ordinance 3.07(7) Notice to Abate Public Nuisances**

Per Administrator Douglas, all those who have affected trees have been notified either in person or by mail and most people have been very cooperative. Dr. Weaver, although very profane and uncooperative, should no longer be an issue as it was discovered the affected tree was not on his property. The trees that were believed to be on the Treis property are actually on the Styza property. Forester Lincoln has not been able to contact Linda Wright as of yet and she has been sent a certified letter notifying her of the affected trees possibly on her land. They can, however, be seen and photographed from the Styza property. Forester Lincoln has met with a logger who could help abate and take away the trees with Oak Wilt. The village will simply be a facilitator of this service, not a contractor. The official notice from the Village Board to abate Oak Wilt will need to be addressed at the November meeting.

**Review and consider 2017 Preliminary Budgets for the Village of Chenequa**

Administrator Douglas presented the proposed 2017 Village Budget for review and consideration which meets the zero levy increase requirements set by the state. (See attached Administrator’s Memo.)

For 2017, the Village did see growth for the third year in a row, and are able to add $28,466 to the levy and still maintain the zero levy limit increase to taxpayers as that is the added levy growth of the village due to net new construction. The Village had $7.2 million in net new construction since last year. The Public Safety Committee met and reviewed the proposed Police Budget, the Deer Management Budget and the Lake Country Fire & Rescue Budget. They were supportive and recommended approval of the proposed 2017 Lake Country Fire & Rescue Budget, the Deer Management Budget and the Chenequa Police Department proposed Budget.

Motion (/Manegold/VonBereghy) to approve the Preliminary 2017 Budget for the Village of Chenequa. *Motion carried.*

The run off from Hwy 83 was running through these properties and causing severe erosion problems and damage to the properties as well as substantial silt run off into Pine Lake. It was recommended that the property owners accept the project proposal as they will not be getting anything above and beyond what is proposed per State Representatives. If the revision does not do what is needed, modifications can be made at that point possibly.
