The regular meeting of the Board of Trustees for the Village of Chenequa was held at 6:30 p.m. on Monday, March 13, 2017, at the Village Hall, 31275 W County Road K, Chenequa, Wisconsin. Legal requirements for notification were met.

The meeting was called to order at 6:30 pm. Public comments were heard regarding Section 6.05(8) of the Village of Chenequa Code of Ordinances Relating to the Regulation of Boathouses. Four residents were in attendance. Attorney Gartner advised Chapter 6 is the zoning code and before amending the code a public hearing is required. This is a technical amendment that will address the regulation involving boathouses which adopted a State Statute that is technically no longer necessary. To clarify the Village Code provisions with respects to the boathouses, this section is being repealed and the definition of boathouse is also being repealed because it is not used anywhere else in the Code. Members of the public were then heard. Attorney Gartner explained Act 55 and its applicability to villages. The public hearing was closed at 6:34 p.m.

The regular meeting of the Board of Trustees for the Village of Chenequa was then held.

Discussion and possible action on amending Section 5.04 of the Village of Chenequa Code of Ordinances relative to Bonds
The language in the Village Code dealing with construction bonds is clarified so that if someone does not complete their building project within two years or does not complete the project consistent with the applicable State Statutes or Village Code provisions the construction bond would then be forfeited.

"Failure to complete the project in compliance with all applicable State Codes and Village Ordinances within 2 years of the date a permit is issued shall also be grounds for forfeiture of the Construction Deposit."

Report - Village Attorney
Conditional Use Permits Attorney Gartner explained what uses might be permitted on the Vettelson Road property under the current zoning code. Currently the Code has been interpreted to allow accessory use structures to be constructed on a lot even though there is no principal building. Technically, the definition of “accessory structure” is a structure that is permitted but accessory to the main building. If there is no main building, technically, the Village should not be permitting construction of accessory buildings without some form of approval process. Identifying such structures as conditional uses would accomplish that. A draft ordinance for consideration will be presented at the next Village Board meeting.

Trustee Bellin requested a possible change in the current Code to address lighting issues. Attorney Gartner will prepare a draft ordinance for the next Board meeting specifically dealing with glare from lights.

Agenda items to be considered for future meetings of the Village Board
- Draft ordinance for conditional use permits
- Draft ordinance to address “glare” in Section 5.23
