Report – Village Forester
Forester Lincoln prepared a report to advise on the *Status of Pine Lake Status, Oak Wilt and Bucket Truck*:

1. **Pine Lake Status**: Brian Suffern from Marine Biochemists re-visited Pine Lake to assess the aquatic invasive populations. Mr. Suffern reported a dramatic increase in the lakes milfoil population. He assumed that this population spike was brought on by a combination of three things. A string of mild winters, a summer with above average precipitation and increased boating traffic around these beds of milfoil. A map was provided for the proposed extensive 2018 treatment areas.

2. **Oak Wilt**: 69 trees were discovered compared to last year’s 156. Because of the lack of significant Oak Wilt presence, we will not be coordinating efforts with Algoma Lumber Company.

3. **Bucket Truck**: Delivery has been taken on the High Ranger Bucket Truck from Village resident Peter Mainka.
